## ANILINE LEATHER

Colorado upholstery leather delivers uncompromising performance with its 1.0 mm vacuum-dried European bovine hides. This process creates a flat surface that differs from typical full-grain leather. Colorado's tight hide structure enhances scratch resistance compared to oil-based leathers, making it ideal for upholstery. Its natural texture variations add timeless character, offering both style and durability for furniture.

### Specifications

Origin:	European Bovine: 100%	Leather Type:	Aniline
Hide Size:	48-54 ft <sup>2</sup> (4.5-5.0 m <sup>2</sup> )	Finish:	Aniline Dye Spray
Thickness:	1.0 - 1.2 mm	Visual effect:	Flat & Consistent
Production:	Made in EU	Durability:	High-Performance Aniline

## ANILINE LEATHER

### Technical Data Sheet

COLORADO is a high-performance upholstery leather crafted from 1.0 mm vacuum-dried European bovine hides. This specialized vacuum-drying process creates a uniquely flat, refined surface and a tight hide structure. Unlike traditional oil-based leathers, COLORADO offers enhanced scratch resistance and superior durability while preserving the natural texture variations that give each piece its timeless character.

PERFORMANCE FEATURE	TEST METHOD	GUARANTEED LIMIT
Colorfastness (Light)	DIN EN ISO 105-B02	≥3 (Blue Scale)
Rubfastness (Dry)	DIN EN ISO 11640	50 Cycles: ≥4 (Grey Scale)
Rubfastness (Wet)	DIN EN ISO 11640	20 Cycles: ≥3 (Grey Scale)
Rubfastness (Sweat)	DIN EN ISO 11640	20 Cycles: ≥3 (Grey Scale)
Tearing Strength	DIN EN ISO 3377-2	≥40 N/mm
Liquid Repellency	ISO 15700	≥3 (Grey Scale)
Dye Through	Internal Standard	Complete

### FLAMMABILITY & SAFETY

COLORADO meets the most rigorous global standards for residential, contract, and marine use:

- Marine (IMO): IMO A.652/16 (Certified for boats/yachts)
- Contract (U.K.): BS 5852 (Crib 5 available on request)
- Automotive: DIN 75200 / BS AU 169
- U.S. Market: California TB 117-2013 / NFPA 260
- European: EN 1021 Part 1 & 2

### HEALTH & ENVIRONMENT

We prioritize your well-being. COLORADO is strictly monitored and free from harmful substances:

- **Chrome VI:** Not detectable  
(Compliant with RAL UZ 117)
- **Chemical Safety:** PCP, PCB, and Formaldehyde free.
- **AZO Dyes:** 100% compliant with EU safety regulations.

## ANILINE LEATHER

### SPECIFICATIONS

#### WHY CHOOSE COLORADO?

- 1. 100% European Heritage:** Sourced exclusively from premium European bovine hides and produced in Europe, Colorado represents the pinnacle of sustainable quality and craftsmanship.
- 2. Authentic Full Grain:** A 100% full-grain leather that preserves the natural integrity of the hide, ensuring a unique character that only improves with age.
- 3. Vacuum-Dried Precision:** Engineered through a specialized 1.0 mm vacuum-drying process, creating a refined, flat surface and a tight fiber structure that outperforms traditional oil-based leathers.

#### MAINTENANCE & CARE

- **Daily Care:** Wipe with a cool, damp cloth to remove dust.
- **Deep Cleaning:** Use a pH-balanced soap for tougher stains.
- **Protection:** We recommend **Conanti Leather CARE KIT for long-term suppleness.**
- **Avoid:** Never use alcohol, ink removers, or harsh household chemicals.

#### CONANTI CARE KIT

Wipe with a cool, damp cloth. For tougher soiling, use a pH-balanced soap and rinse. Repeat, if needed. Occasional use of Conanti Aniline Cleaner & Protection is recommended. Other leather cleaners such as saddle soap or household cleaners that may contain harsh chemicals, alcohol or ink removers should never be used.

#### CLEANER

##### Key Action: Prepare the Surface

This cleaner degreases the leather surface, allowing subsequent nourishment and protection to absorb better and work effectively.

- **Step 1: Create Foam**

Apply a small amount of cleaner directly onto a soft sponge. Squeeze the sponge repeatedly until a rich foam develops.

- **Step 2: Clean the Leather**

Use the foam to clean the leather in light, circular motions. For areas with heavy grease buildup, allow the foam to work briefly before wiping. Always clean the entire section—work meticulously from seam to seam to ensure an even result.

- **Step 3: Drying Time**

Allow the cleaned leather to dry for a minimum of 2 hours before applying any maintenance or protection products.

CLEANING LEATHER (Removable covers)

#### PROTECTION

##### Key Action: Nourish and Protect

Apply this nourishing protection cream after cleaning to replenish the leather and establish a new protective layer for the upcoming season.

- **Step 1: Apply to Cloth**

Place a small amount of protection onto a clean, soft cloth.

- **Step 2: Massage into Leather**

Spread the cream thinly and evenly across the leather surface using circular motions. Work meticulously from seam to seam, ensuring you always complete the entire section before moving on.

- **Step 3: Drying Time**

Allow the treated leather to dry completely for a minimum of 2 hours before use.
